## Press Release 15/2005

December 20, 2005

### Couples breaching IDSF policy.

The **International DanceSport Federation, IDSF**, regrets to announce that some of its couples breached IDSF policy by competing in the recent IDU event in Kun Shan, China. Unfortunately some couples appear to have been manipulated into competing at this event so as to give it a false status. Regardless, all such couples who competed at this event will be subject to disciplinary action by the IDSF and/or its member bodies.

The IDSF reminds all DanceSport couples that it is the **International Olympic Committee, IOC**, recognised international federation for DanceSport and the only organisation that can confer official status as a World, Continental or Sub-Continental Champion.
